"McIntosh Lanterns Are Honest Lanterns."

Vitalize

your lectures, by showing pictures of the processes you are discussing.

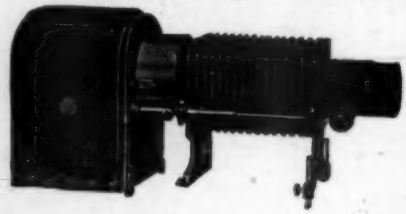
In Chemistry, you can show industrial processes which are based on applied Chemistry: Soap, Rubber, Asphalt, Paint, etc.

In Botany and Zoology; Life Cycles, Ecology, Dissections, Natural History.

In Geology; Weathering, Work of Water, Rivers and Valleys, Snow and Ice, Ocean, Vulcanizm, Sedimentation, etc.

In Physics; Mechanics, Heat, Sound, Light, Magnetism and Electricity.

Lantern slides to illustrate all the above and much more are listed in our catalog S.



And to project these slides there is no lantern like the Automatic Scioptiсon, priced, complete with 400 Watt Gas-filled Mazda lamp, at $56.00.

Write for circulars and catalogs and submit your projection problems.
